

FUEL SAFE® JERRYCANS

Safe and Secure

PB Packaging offers an innovative range of Heavy Duty and All Purpose FUEL SAFE® jerrycans to transport fuel and other flammable materials safely and securely.

The Heavy Duty series is constructed from a carefully formulated high density polyethylene plastic for the demanding requirements of fleet operators, industrial applications, tradesmen and contractors.

Our FUEL SAFE® jerrycans are used by consumers who require efficient, safe storage and transportation of flammable liquids such as petrol, diesel, methylated spirits and mineral turpentine.

Our Heavy Duty and All Purpose FUEL SAFE® jerrycans are manufactured and certified to AS/NZ certification No 20101.

Specially designed with self-venting nozzles to prevent glogging and accidental fuel spillage!

Technical Specifications

Material Options: High molecular Weight High Density Polyethylene (HmW HDPE)

Closure Options:

- Closure: HDPE 39mm diameter with nitrile gasket and retaining strap
- Pouring Nozzle: HDPE vented pouring nozzle with retaining closure

Sizes: 5L, 10L, 20L

Use: Dangerous Goods
